HAWKINS COUNTY LITTER PROGRAM
FY 2015-16
ROADSIDE LITTER PICKUP WORK PLAN

Hawkins County proposes to use citizens that have been sentenced to community service via General Sessions Court System, as well as prisoners, from time to time, out of the jail/workhouse, and volunteers, to collect litter and trash along county and state roadways within Hawkins County's boundary. They will be transported to and from work in a bus. The prisoners used have not committed a felony crime. The driver of the bus will also guard the prisoners as they pick up trash. Trash bags will be collected from roadway onto a flatbed truck.

It is proposed that litter and trash collected will take place at least 3 days a week and more if clients report for community service duty. Hawkins County will be using an area rotation system. The rotation will keep an excessive build-up of litter in any area of the county and will prevent the possibility of transporting prisoners to an already cleaned area where there would be too much unproductive time and ineffective use of labor. The days that the weather will not permit litter pick up, the community service clients will work at the recycle center sorting and baling recyclables for resell.

Any illegal dumps along roadsides will be cleaned up. All litter that can be recycled will be transported to the recycle center.

All litter workers, drivers or prisoners will be supplied with adequate safety colored vests and will be required to wear these at all times while working on or near a roadway. Work gloves, litter bags, and litter grabbers will be used for the purpose of litter collection. Drinking water will be available for litter workers as well as having a first-aid kit on hand for accidents. Lunches will be provided to all prisoners who participate in the litter collection of the Litter Grant Program.

Specific roads covered for litter collection, pounds of litter collected and other pertinent information will be reported and submitted in the required monthly report to TDOT.

HAWKINS COUNTY LITTER PROGRAM
FY 2015-16
EDUCATION PROGRAM WORK PLAN

Hawkins County will target for this year's litter education the following areas:

Business Education- Litter and Recycle educate will be taught at Civic organization group meetings to promote litter reduction and recycling in Hawkins County via the business community. Someone from the litter program will encourage business and industries to reduce, reuse and recycle. More civic organizations will be encouraged to participate in litter pick-ups. We have at least sixteen organizations that have "Adopted A Highway" programs at this time.

Media Education - We will educate through the media problems concerning litter on the highways and county roads. Radio and newspaper advertising will be used to promote these problems. Also the public will be educated to make Hawkins County a litter free community by putting trash in its place and recycle when possible.

Public Education - We will encourage and work with community groups in scheduling litter pick-up days. We will share with the community the importance of litter control and how it affects the appearance of the county and what a difference recycling makes in the community. Hawkins County will encourage the citizens to make any public event a litter free event by putting all litter in trash receptacle and recycling bottles and drink cans at public events. There are brochures available at different locations in the county on recycling, reducing, litter, etc. for the public education. Events that are annual events are Fourth of July, Heritage Days, cars shows (5 months a year) as well as annual celebration days held in some of the cities in Hawkins County that are pertinent to the city.

Student Education - Litter free sports events at the high schools are being implemented and middle schools. Students in the Pre-K-second grades will be taught "The Day Litter Comes Out and Plays" and third and fourth grades will be educated about what littering does to the environment and the importance of recycle. Students as well as the teachers at all schools will be encouraged to recycle anything that is recyclable.

The above amendment is to transfer funds not needed to pay for Transportation Employees' Health Insurance to the Trustee's Commission line where the money is needed. Due to the tax rate restructuring, more money is being receipted into the Transportation Fund instead of being receipted into the General Purpose fund and then transferred to the Transportation Fund; therefore, the Trustee's Commission is higher this year.
